

TECHNICAL DATA SHEET FLORPROTEC ENVIROBORD

BASE MATERIAL & FEATURES

T-Bord™ EnviroBord is a protection sheet manufactured from 95% recycled extruded polypropylene. Available in flame retardant and non flame retardant options.

APPLICATIONS

T-Bord offers impact protection and is ideally suited for use in protecting smooth floors, including vinyl, timber, terrazzo, marble and stone. T-Bord can also be used as a protection to doors, columns, walls, work tops, joinery, masonry and glazing.

ADVANTAGES

- Lightweight and flexible
- Recyclable
- Waterproof
- Offers impact protection
- Easy to install and remove
- Can be own branded
- Easy to cut and trim with a sharp knife
- Forms and creases easily in direction of the flutes
- Available in various thicknesses and density. For higher traffic areas or longer term use we recommend using a high density

PRODUCT DETAILS
