IMO resolution MSC 307 (88):annex 1 Part 5 (SOLAS 1974)

French 'M' classification

Florprotec T-Bord is tested to French M classification (IFTH)

M389 - m4

America/Canada UL Csa V2 class

German Standard DIN 4102 class B1

APPLICATIONS

T-Bord offers impact protection and is ideally suited for use in protecting smooth floors, including vinyls, timber, terrazzo, marble and stone.

The heavy duty range is suited to long term use or heavy traffic areas. This ranges could be used when site traffic is heavy than standard foot traffic. For sites with mobile towers, MUTES, cherry pickers, etc the heavy duty range should be considered.

ADVANTAGES

Extra heavy duty for heavy traffic or long term use

JigsawBord does not require tape, sheets interlock

Lightweight and flexible

Recyclable

Waterproof

Offers impact protection

Easy to install and remove

Can be own branded

Easy to cut and trim with a sharp knife

Forms and creases easily in direction of the flutes

Available in various thicknesses and density. For higher traffic areas or longer term use

we recommend using a high density
